About Me

I'm an engineer fueled by curiosity for emerging technologies, especially in web development. I'm captivated by the impact web pages can have on users and businesses. I thrive as a proactive collaborator, driven by a genuine desire to assist others. Additionally, I excel in quickly establishing rapport and fostering connections.

Work Experience

Web App Support Intern

Universidad del Noreste - 3 months - 2020

Maintained the university pages to keep them fully operational for when the users log in and interact with it they wouldn't have any problems or bugs.
